- Stick the bottom barcode ("Nase-/Rachenabstrich") lengthwise onto the white field of the sampling tube.

6 Saline solution for saliva gargle water test

TESTING (on an empty stomach, directly after getting up!)

- Cough 2x with closed mouth.
- Twist off the lid of the saline solution, empty it completely into your mouth and gargle/rinse for approx. 30 seconds.
- Split liquid into the sample tube and close it well.

7 Place the sample tube in the safetybag and close it tightly - by simply peeling off the adhesive foil.

! THE WHITE FLEECE MUST REMAIN IN THE SAFETY BAG!

8 Insert your safetybag in the envelope and close it tightly.

Return envelope AND request sheet back to the point of sale early in the morning (until 9:00 am).
